

NIVA VP

CONNECTED LEVEL REGULATION FOR OVERFLOW POOLS

CONNECTED LEVEL REGULATION

Discover Niva VP, the innovative and connected level regulation solution for overflow pools with a buffer tank (Tild VP filtration panel required for operation).

UNMATCHED PRECISION

Designed to offer unmatched precision, Niva VP uses differential pressure measurement technology to ensure a perfectly regulated water level, accurate to the centimeter.

NO MORE FLOATERS

Thanks to its measurement technology, Niva VP ensures precise and reliable level regulation, eliminating the inaccuracies of old float systems.

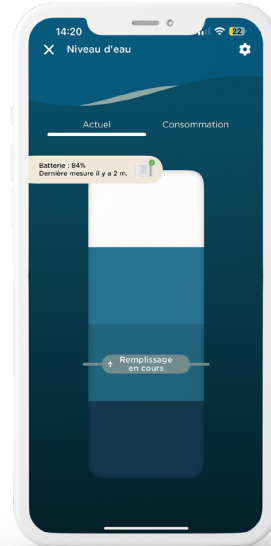

A RELIABLE AND CONNECTED LEVEL REGULATION

- ✓ Niva VP is equipped with a pressure-based level sensor, unlike traditional systems that use floats
- ✓ The pressure measurement technology offers centimeter-level precision for both measurement and adjustment
- ✓ Niva VP must be used with a Tild VP filtration panel
- ✓ Simplified installation with no wiring required when used with the Tild filtration box, minimizing the risk of wiring errors
- ✓ Integrated leak detector capable of detecting any anomaly to ensure the safety of the installation

Niva VP represents the future of level regulation for overflow pools. With its cutting-edge technology, simplified installation, and advanced features, Niva VP offers a complete and reliable solution to keep your pool in perfect condition. Choose precision, safety, and smart water management with Niva VP.

With Niva VP, enjoy a pool that is always at the right level, with optimized water management and hassle-free installation. Trust technology for a worry-free pool experience.

VIGIPOOL: THE TECHNICAL ROOM IN YOUR PHONE.

Vigipool is your new smartphone app that lets you keep your technical room in your pocket at all times. With this app, you can centralize your technical room's devices and control your WiFi-connected equipment from anywhere in the world. Vigipool gives you real-time access to Niva VP and your technical room.

A SCALABLE SOLUTION:

For an even more complete setup, add Vigipool-compatible devices to your technical room and see new features appear in your app, such as filtration control, LED projector management, and more.
